Zetterman, R., 607

SUBJECT INDEX TO VOLUME 15

A

Absorption,
  intestinal, of iron, 37
  _____, __ sodium taurocholate, 421
  vitamin A, 519
Alcohol dehydrogenase, 635
Alcoholism, chronic, 9
Alfalfa, nutritional value, 511
Algal protein supplement, 145
Altitude, amino acid patterns in Peruvian natives, 215
Amino acid(s), (see also specific amino acid)
  composition,
    heproly barley, 383
    Pereskia aculeata, 529
    sainfoin seed, 397
  deficiency, 231
  determination, method, 95
  free, in rat muscle, 59
  levels in Peruvian natives, 215
  supplement, 19, 27, 231, 347, 511, 539
Amylase, inhibitor, 443
Amylopectin, 157
Ascorbic acid, 125, 255
Atherogenesis, spontaneous in pigeons, 223

B

Barley, 157, 383
Bean, amylase inhibitor, 443
Beef,
  soy-wheat, biochemical values, 659
  _____, biological evaluation, 667
Biological, evaluation, 497, 667
Broiler, changes in skin collagen, 325

C

Cadmium, accumulation in rats fed activated sewage, 645
Calcium,
  dietary in turkey poults, 437
  level in pullets, 139
Caloric restriction, 51
Canbra oil, 41
Carbohydrate,
  dietary, 361
  effect on intestinal microflora, 131
  regulation of urinary N output, 373
Chemical, constitutents of Nigerian yams, 265
Cholesterol, 89, 337, 571, 597
  7α-hydroxylase, effect of fats, 65
  in guinea pigs, 125
Cholesterolemia, 355, 587
Choline, 607
  deficiency, 9
  supplement, 27
Chromatography, 41
Chymotrypsin, 619
Circadian rhythm, 547
Cocoa husk, 165
Coffee, waste as feed in sheep, 99
Collagen, 191, 325
Computer program, nutrient-response data, 1
Contraceptive, oral, 255
Copper, 191, 469
  deficiency, 597
  metabolism in rats, 275, 287, 587
Corn,
  diets in pigs, 19
  _____ rats, 27, 305
Cornification of the vagina in rats, 553

D

Development, physical, 407
Diet, infant, effect on cholesterol, 337

Dietary,
fillers, 311
low protein levels in pigeons, 223
Digestibility, 99

E

Egg,
protein, 183
shell thickness, 81
Elastin, 191
Electrolytes, total urinary, 109
Energy,
levels in diets of broiler chicks, 171
metabolism in turkeys, 581
utilization, 311
_____ in turkeys, 493
Enzyme(s), (see also specific enzyme)
activities in rat liver, 347
amylase inhibitor, 443
hepatic, 251
lactase levels, 451
lipogenic, 105
sialidase, in rat brain, 477
Ethionine, 607
Extraction, leaf proteins, 529

F

Fat, source in diet of broiler chicks, 171
Fatty acids, 41
Feed,
restriction, effect on liver function in rats, 295
_____
weight in pullets, 251
Food,
intake regulation, 51
strained, baby, 627

G

Glucagon, 361
Glucose, tolerance, 391
Glycine, 347
Growth,
compensatory, 51
effect of cocoa husk diet in broiler chicks, 165
_____ corn diets in pigs, 19
_____dietary yeast, in rats, 199
in children, 407
__ rats fed activated sewage sludge, 645
__ swine fed hiproly barley, 383

H

Hair, zinc levels, 635
Heart, triglyceride accumulation in rats, 71
Hemoglobin, regeneration, 305
Hepatic fat, accumulation, 607
Hydeoxycholic acid, 571
Hydroxypropyl distarch phosphate,
Hyperlipoproteinemia, 337

I

Immunoglobulins, 561
Income, effect on serum protein, 561
Insulin, 361, 373
receptor, 429
Intestine, microflora, 131
Iron, 469, 651
absorption in rats, 37, 305
effect on manganese transport, 577
metabolism, 279, 287
supplement, 459

K

Kidney, concentrating ability, method 109

L

Lactase, levels in rats, 451
Lactic dehydrogenase, 635
Lactose, dietary, 421

Lead, accumulation in rats fed activated sewage, 645
Legumes, 239
^{14}C-Leucine, incorporation in liver protein, 231
Lipase, 619
Lipid,
levels in infants, 337
liver, effect of fats, 65
metabolism, 105, 391
synthesis, 71
Lipogenesis, 429
Lipotropic requirements, 9
Liver,
composition, effect of amino acid deficiency, 231
effect of feed restriction in pullets, 251
enzume, 347
mitochondrial, function, in rats, 295
triglycerides, 65
Lysine,
deficiency, 231
supplementation, 19, 27, 539

M

Maize, 273
Malnutrition, in children, 407
Manganese, 577
Mathematical model, 1
Mercury, 81, 645
Metallocalorie ratios in fruits and vegetables, 469
Methionine,
deficiency, 231
supplement, 27, 231, 511, 539
_____, excess, 347
Microbial cells, dried, 581
Microflora, 131
Milk, cow's, 651
Minerals, 109
constituents of Nigerian yams, 265

N

Nicotinic acid, 607
Nucleic acid, 511
Nutritional bioassay, 1

P

Pancreas, 619
Pantothenic acid, content in strained baby foods, 627
PCB toxicity, 125
Pentobarbital,
metabolism, 519
sleeping times in rats, 645
Performance, effect of diet in broiler chicks, 165
Peruvian, biochemical, clinical and anthropometric measurements, 215
Phosphorus, dietary in turkey poults, 437
Physical performance in rats, 483
Phytate, 207, 587
Polyol, 519
Potassium, dietary, 483
Protein,
algal supplements, 145
corn-soybean diet in pigs, 19
deficiency, effect on lactase activity, 451
dietary deficiency, effect on pancreas, 619
leaf, alfalfa, 511
___, cactacea, 529, 539
low-dietary level in pigeons, 223
quality, 659, 667
_____ of rapeseed concentrate, 331
_____ sainfoin seed, 397
requirements for maintenance of body weight in rats, 183
serum, 561
source, effect on glucose utilization, 429
utilization, 99
yeast, 199

Protein efficiency ratio, 145, 239, 539, 667
Protein sparing action, 373
Pullets, bone mineralization, 139

Q

Quail, 81

R

Race, effect on serum protein, 561
Rapeseed,
  concentrate, 331
  oil, 41
  __, high-erucate, 71
Refeeding, effect on tissue weights in mice, 367
Reproduction, 645
Rubber seeds, 497
Ruminants, 99

S

Sainfoin seed, 397
Sand, dietary level, particle size in feeds, 493
Selenium, 81
Sesame, protein, 183
Sewage, activated sludge, as feed, 645
Sialidase, activity in rat brain, 477
Skeletal ash, 139
Skin,
  collagen in broilers, 325
  extracts, in rats, 319
Soapstocks, 171
Sodium,
  dietary, 483
  phytate, 587
  taurocholate, 421
Soy,
  flour, whole fat, 681
  proteins, 183
  _____ concentrate, 654, 667
Starch,
  diets in rats, 273
  utilization, 443
Starvation, effect on uterus in rats, 547
Starvation-refeeding, in mice, 367
Sterols, age-related accumulation in pigeons, 223
Sucrose, dietary, effect on gestation in rats, 391
Sugar, dietary in hens, 355
Sulfur compounds, 319

T

Tea, effect on serum cholesterol, 89
Threonine, deficiency, 231
Triglyceridemia, 355
Trypsin inhibitor, 397
Tryptophan,
  analysis, 95
  supplementation, 19, 27
Turkey, 311, 437, 493, 581

U

Undernutrition, effect on sialidase activity, 477
Urea nitrogen, 659
Uremia, 105
Uterus, wet weight in rats, 547

V

Vitamin(s), (see also specific vitamin)
  A, 519
    deficiency, 59, 89, 553
  C, 125, 255

W

Weight, protein requirements for maintenance, in rats, 183
Wheat, whole flour, 659, 667

X

Xylitol, 519

Y

Yam, mineral content, 265
Yeast, processing, 199

Z

Zinc, 191, 469, 635
  absorption, 651
  availability, 207, 681
  deficiency, 319, 553
  inadequacy of mineral mixtures, 331
  metabolism, 587

SUBJECT INDEX TO VOLUME 16

A

Acid ash, 735
Acid-resistant hemicellulose, 277
Adolescence, 639
Aldosterone, plasma levels, 751
Alga, green, 231
Algae, 579
Amino acid(s), (see also specific amino acid)
  digestibility of rice protein, 649
  dietary, 621
  _____ imbalance, 293
  levels, interaction with humidity, 587
  plasma, in undernourished rats, 285
  requirements, rat and human, 163
  soybean mixtures, 385
  supplementation, 631
Anemia, meat, 73
Anthropometric development, 15
Antinutritive substance removed from rapeseed, 367
Ascorbic acid, 81,769, 789
Atmosphere, temperature and humidity, effect in broilers, 587

B

Barley, 157, 383
Bean, locust, 813
Beta-carotene, content in organs, 419
Bioassays, protein nutritive value, 163
Bone, resorption,735
Brain,
  feline, 487, 497
  growth, 363
Broilers, 133
  effect of temperature and humiditu, 587

C

Cadmium, toxicity, 769
Calcium,
  absorption, 539
  in chicks, 617
  salt, utilization, 471
Caloric restriction refeeding, 59
Cane molasses, 549
Carbohydrate, effect of lipid metabolism, 719, 727
Carnitine, 761
Cassava,
  leaf, 821
  levels, effect on leaf protein utilization, 397
  nutritive value, 29
  peel, 479
Cathepsin, activity in rat organs, 285
Cellular immunity, 267
Chapatis, 349
Chlorella, 579
Cholesterol, 37, 47, 385, 573, 681
  levels in young women, 139
Circadian rhythm, 403
Clay, filter as feed, 249
Coffee, 89
Colestipol, 681
Collagen, 377
Contraceptive, oral, 139
Copper, 227
Corn, Nigerian, 595
Corticotropin (ACTH), 789
Cortisol, 403
Cyclic AMP, 81

D

Developing brain, 363
Diet, evaluation, 255
Digestibility,
  cassava peel, 479
  rice protein, 649
  soybean, 603

Disaccharidase, 621
Disease, ischemic heart, 73
Dog, urea, 305

E

Egg, nutritive value, 695
Elderly, 743
Energy,
  dietary, effect of humidity, 587
  requirements, 557
  source, spent filter clay, 249
Enzyme, 115
  activity in undernourished rats, 285
  digestion, 187
  disaccharidase, 621
  leucineaminopeptidase, 621
  xanthine oxidase, 241, 825
Esters, cholesteryl, 403

F

Fat, 573
  absorption in infants, 447
Fatty acids, 11
Feed, spent filter clay, 249
Feeding,
  frequency, 305
  regimes, 413
Feline,
  brain development, 487
  effect of undernutrition on behavior, 513
  _____ brain composition, 497
Flour, utlization, 595
Fluroide, effect on calcium absorption, 539
Folic acid, 565
Formiminoglutamic acid, 565

G

Germination, 125
Glucose,
  blood in rats, 713
  dietary, 803
Glycogen, muscles, 413
Goats, 681
Growth,
  cognitive development in preschoolers, 93
  compensatory, 59
  rate in rabbits and broilers, 133
  rats, protein quality assay, 1
  stimulation, 277

H

Hepatic enzyme levels in chicks, 825
Histopathology, 231
Humoral immunity, 267
dl-Hydroxyleucine, 611
Hypercholesterolemia, 73

I

Inanition, 377
Infant,
  formula, 447
  malnutrition, 557
Insulin, exogenous, 413
Interspecies extrapolation, 363
Intestinal phytase in rats, 147
Iron, 769
  fortification, 89
  loss in adolescent girls, 639
Isobutyrylthiamine, 779

K

Kidney, function, 317, 329
Kinetics, protein, 1
Kwashiorkor, 751

L

Labeling requirements, 201
Lactic dehydrogenase, 779
Lanthanide, 339
LD_{50}, 11

Leucine, activity, 611
Leucineaminopaptidase, 621
Linoleic acid, 803
Lipids,
  adrenal, 631
  chlorinated, 11
  metabolism, 719, 727
Lipogenesis, 37, 47
Liver,
  effect of ascorbic acid, 81
  glycogen, 713
  lipids, 631, 803
Lysine,
  deficiency, 631
  supplementation, 439, 761

M

Magnesium metabolism, 471
Maize,
  silage fed sheep, 657
  starch, 821
Malnutrition, 93
Markers, 339
Menses, in adolescent girls, 639
Mental development, 93
Metabolic acidosis, 115
Metabolism, skin collagen, 377
Methionine,
  deficiency, 565
  supplementation, 705, 761
Methods, processing alga green, 231
Milk, bovine, xanthine oxidase feeding, 241
Minerals, loss in adolescent girls, 639
Monkeys, 751

N

Net protein retention, 179
Nitrogen,
  balance index, egg protein, 695
  digestibility, 549
  intake, effect on transferrin levels, 425
N^7-methylhistidine excretion, 705
Nitrogen-sparing action, 705
Nucleosides and nucleotides in rat liver, 81
Nutrient values, 687
Nutrition,
  and development of renal tubular transport, 317
  dietary, relationship to anthropometric development, 15
  effect on puberty, 103

O

Oilseeds, 813
Organ,
  carotenoid content, 419
  in malnourished rats, 285
Overnutrition, prenatal, 329
Oxidases, mixed function, 463

P

Pea seeds, 125
Phosphate, dietary, 735
3-Phosphoglycerate dehydrogenase, 115
Phosphorus,
  in chicks, 617
  metabolism, 471
Phytase, 147
Phytates, 125
Phytic acid, 603
Pigs, 479
Pregnancy, effect of substance in rapeseed, 367
Protein,
  cassava leaf, 821
  deficiency and excess, 463
  _____, effect on thyroid function, 667
  dietary, 115
  _____, effect on liver glycogen, 713
  _____ deficiency effect on aldo-

sterone levels, 751
effect on jejunal enzyme activities, 621
_____ transferrin levels, 425
evaluation, 293
intake, control of, 59
isolates from oilseeds, 813
leaf concentrate supplement, 29
levels of cassava on utilization, 397
plant, 385
nutritional labeling, 163
nutritive value, egg, 695
quality, 1, 157, 187, 201, 207, 455
_____, bioassays, 179
_____, of cereals, 439
_____, __ chapatis, 349
_____, method, 293
requirement, 255, 557
restriction, in rats, 21
soybean, 603
Protein-energy malnutrition, 29
Protein efficiency ration, 179, 201, 207, 397, 439, 455, 549, 821, 825
Protein-free diet, effect on muscle turnover, 705
Psychology, 15
Puberty, process of virilisation, 103
Pyriformis, 455

R

Rabbits, 133
Radioiodine uptake in rats, 667
Rapeseed, 367, 795
Renal development, 317, 329
Retinoic acid, 37
Rice, milled, 649
Ruminal metabolism, 657

S

Sarcoplasm, 779
Seeds, 227
Serine, biosynthesis, 115
Sheep, 657
Skin, accumulation of carotenoids, 419
Sorghum silage, fed sheep, 657
Soy oil, 447
Soybean,
fiber, 573
protein isolate, 603

Sucrose, 719, 727
Sulfate,
excretion in zinc deficient rats, 391
inorganic, in chicks, 617
Sweetner, artificial, 611
Swine manure, 579

T

Tannins, 657
Taurine, excretion in zinc deficient rats, 391
Temperature, effect on calcium retention, 471
Tetrahymena, 187, 631
Threonine,
deficiency, 631
supplementation, 439, 705
Thyroid, effect of protein deficiency, 667
Toxicity, of chlorinated lipids, 11
Transferrin, 425
Transport rate, in humans, 339
Tribolium, 255
Triglyceride,
levels in young women, 139
tissue in rats, 795
Triticale, 349

U

Undernutrition,
in cats, 497, 513
__ rats, 21
prenatal in rats, 147
Urea, 305

Uric acid in chicks, 825

V

Vietnamese women, nutrient intake, 687
Virilisation, in boys at puberty, 103
Vitamin(s), (see also specific vitamin)
A, 47
B_6, 743
C, 81, 403, 769, 789

W

Weight,
gain, pigs fed cassava peel, 479
organ, in rats, 21

X

Xanthine oxidase,
activity in chicks, 825
miniature pigs, 241

Z

Zinc, 227
deficiency, in rats, 267, 391
Zinc/copper imbalance, 73
